

Certificate

Dr. Pantelis Stavrinou

from

Metropolitan Hospital
Ethnarchou Makariou 9, 18547 Neo Faliro/Athen

has successfully participated in a one day training course covering

**Fluorescence-guided resection using gliolan®
on 8th May 2020**

The contents of the training course follow the conditions required by the EMA (European Medicines Agency) to ensure the safe and effective use of gliolan® as defined by market authorisation on September 9th, 2007.

The training course was organised and performed by medac GmbH and fulfils the additional risk minimisation measure, aimed at reducing neurological adverse effects by the use of gliolan®

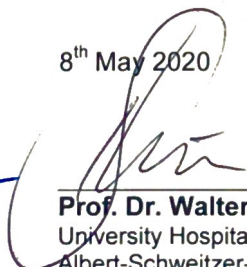

The trainee has received the training manual and is in possession of this certificate authorised to use gliolan®

8th May 2020
